

We are living through unprecedented times. As we move from level 4 to level 3, teachers in Aotearoa have much to consider: How do I care for myself and my own whanau? How do I support children to learn through distance / at home / remote / online learning? Can I continue 'walk my talk' in terms of my beliefs about quality teaching and learning? In these two workshops we will explore these questions, and suggest some ways in which dramatic inquiry can help. The two workshops are a series and will complement each other. We hope you will want to attend both. However, either one can be attended separately

Dramatic Inquiry & Home Learning

WORKSHOP ONE

Dramatic Inquiry and Home Learning

WORKSHOP SUITABLE FOR: teachers and caregivers of primary - intermediate aged children

FACILITATOR: Viv Aitken (Tatai Angitu E3@ Massey - Ministry Accredited facilitator)

In this interactive workshop, Viv will suggest FOUR ways dramatic inquiry can be used within distance Learning / home learning / online programmes. These practical, manageable ideas will allow your children to learn in imagined worlds (not the same as virtual ones) - with engaging, meaningful, authentic, agentic and safe activities. Participants will leave the workshop having reflected on their own priorities for teaching and learning and with at least one practical idea to include in their own programme. The workshop is designed for teachers and caregivers with an interest in dramatic inquiry; ie child-structured dramatic play, process drama, drama for learning and / or Mantle of the Expert. Some Ideas from this workshop will be further developed in WORKSHOP TWO

WORKSHOP TWO

DOG SQUAD: A dramatic adventure for home learning

WORKSHOP SUITABLE FOR: Primary / intermediate teachers

FACILITATORS: Viv Aitken (Tatai Angitu E3@ Massey - Ministry Accredited facilitator) and Renee Downey (Otaika Valley School)

In this workshop, Viv will be joined by classroom teacher and curriculum leader Renee, to talk about DOG SQUAD - a Mantle of the Expert-inspired adventure for home learning they wrote together (inspired by the work of Tim Taylor and explore.com in the UK). The programme is being trialled in Renee's class at the moment, with children highly engaged and excited about their learning. The workshop will cover the planning process and delivery, surprises and challenges, and examples of children's responses. Participants will be encouraged to consider ways to adapt this model for their own settings. This workshop is designed for teachers with an interest in dramatic inquiry (particularly the extended, cross curricula approach known as Mantle of the Expert). Some experience in planning and teaching in dramatic inquiry will be an advantage, though not essential. Some ideas from this workshop build on those from WORKSHOP ONE.
