

Mantle of the Expert

Winter School 2021 - Foundations

Mantle of the Expert is a teaching approach developed from the work of Dorothy Heathcote. It combines inquiry, with drama and powerful positioning to provide learning opportunities that weave across the curriculum and are authentic, safe, agentic, sustained, challenging, active, collaborative, and highly engaging.

Recent studies have shown a range of benefits for learners including enhanced engagement, improvements in oral language, progress in writing, growth in key competencies, and deepened understanding of curriculum skills and knowledge.

Join Dr Viv Aitken and experienced teachers from across Aotearoa New Zealand for one and a half days of intensive professional development and exploration. The foundations course will cover:

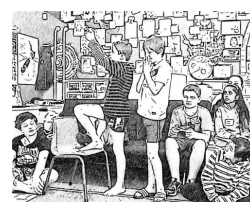

- **Mantle of the Expert in the 21st century curriculum**
- **Cultural considerations**
- **Real classroom examples**
- **The 10 core elements**
- **Planning steps**
- **Getting started – advice and further support**

Suitable for teachers of year 1 – year 11.

Workshops tailored to participant needs. No prior experience necessary.
